ISIS features scholarly articles, research notes and commentary on the history of science, medicine, and technology, and their cultural influences. Review essays and book reviews on new publications in the field are also included. Individual subscribers are enrolled as members of the History of Science Society.

The Bulletin of Hispanic Studies is the foremost journal published in Britain devoted to the languages, literatures and civilizations of Spain, Portugal and Latin America. It is recognized across the world as one of the front-ranking journals in the field of Hispanic scholarship.

Recent policy has resulted in a substantial increase in the number of articles published and a reduction of the waiting time between submission and publication of both articles and reviews.
